TEACHER MENTOR-MENTEE REPORT
SESSION 2023-24

Students face a variety of stress-related challenges during their academic journey. To help them maintain emotional stability and improve their clarity in thinking and decision-making, mentoring plays a crucial role. Each educator is assigned a group of students for regular meetings, where they can discuss and address personal, domestic, and academic concerns. The success of this mentoring approach can be seen through improved exam results, increased attendance, greater participation in extracurricular and cocurricular activities, better discipline on campus, and a more respectful relationship between faculties and students.
